WOODLANDS
FAMILY DENTAL
BRETT A. MURPHEY, DDS

More reasons to smile

Dr. Brett Murphey believes the details are in the little things. "I opened Woodlands Family Dental because I wanted to change the perception of how patients typically view dentistry," explains Dr. Murphey. Combining modern techniques with a relaxing atmosphere and a caring staff is what you'll find at Woodlands Family Dental; forget any childhood memories of anxiety or cautiousness about visiting a dentist!

"Our mission is to provide our community with an exceptional dental experience through hospitality, amenities, quality and efficiency," says Dr. Murphey. The office at Woodlands Family Dental is geared toward comfort from your first step in the door; in the reception area, there's a flat screen television, an internet station, a beverage bar with coffees and flavored water and movie room with an Xbox for the kids. All complimentary and for your convenience.

"While designing our office, we did away with anything that might make a patient feel distressed, like an intimidating x-ray arm or a blinding overhead light. We brought in high definition flat screen televisions in each treatment room, we wear very small headlights with magnification, and use a hand-held x-ray gun that reminds you of something from The Jetsons," jokes Dr. Murphey. "We want our patients to know we want what's best for them—a beautiful smile and their utmost comfort!"

"At Woodlands Family Dental, we want each patient to feel special and to know that we have their best interest in mind," says Tiffany Guenther, one of the dental hygienists at Woodlands Family Dental.

Woodlands Family Dental uses the most up-to-date dental techniques and the most modern equipment. Dr. Murphey is a full-service dentist and can perform an array of services, many cases in a single visit. Most patients never have to leave the office for full treatment. Dr. Murphey adds, "We offer sedation which is great for many types of patients, including those that have a severe phobia or those who simply desire to be completely relaxed during treatment. Believe me, sedation is a God-send for many patients who would not be able to have treatment otherwise. In addition, it is a great way to complete most or all of your treatment in one visit." For busy patients, Woodlands Family Dental is not only convenient but efficient as well!

"One of the most efficient services we offer are single-visit crowns," says Dr. Murphey. "We use CAD/CAM technology to make your crown in about an hour and a half! Our patients love this because scheduling only one visit is very efficient, and they don't have to wear a temporary crown for two weeks or more. There are numerous benefits to this type of crown. I believe that it is one of the greatest contributions to modern dentistry, and honestly feel that it is best for our patients."

"Having a crown done in one visit was incredibly easy because I was only away from my office for a short while in the morning," said Mark Raines. "It was amazing; they made my new crown right there in the office and I left with it that day!"

Imagine if you had a tooth missing or in dire need of being removed...what if you could replace that tooth as if it were never gone? One of the newest, most proven and tested technologies is implant dentistry. Implants have one of the highest success rates of any procedure done in dentistry today. In as little as one or two visits, Dr. Murphey can painlessly replace missing teeth with state-of-the-art dental implants. In many cases, this implant can be cheaper than the cost of a bridge! "The best things about implants are that we don't have to "sacrifice" the two adjacent teeth to replace one missing tooth, as may be necessary with bridges," says Dr. Murphey. "Implants are treated as natural teeth, and many patients report they are much easier to take care of than bridges."

Dr. Murphey and his staff want you to have your best-ever dental experience at Woodlands Family Dental. "The state-of-the-art facilities enhance the experience to me, as a patient, and engender confidence that the practice is on the leading edge of technology and experience," said patient David Phillips. "Dr. Murphey and his staff are extremely professional, courteous and friendly."

"The entire staff makes me feel at ease and gives me confidence that I am in very professional hands," said Gavin Rowlands. "I've had dental treatments in many countries around the world and this is absolutely the best treatment and service I've had anywhere."

Come in and tour the office and allow them an opportunity to prove their mission statement of *providing you an exceptional dental experience through hospitality, amenities, quality and efficiency*. Woodlands Family Dental strives for excellence in all they do. Come experience why Woodlands Family Dental is different in the details.

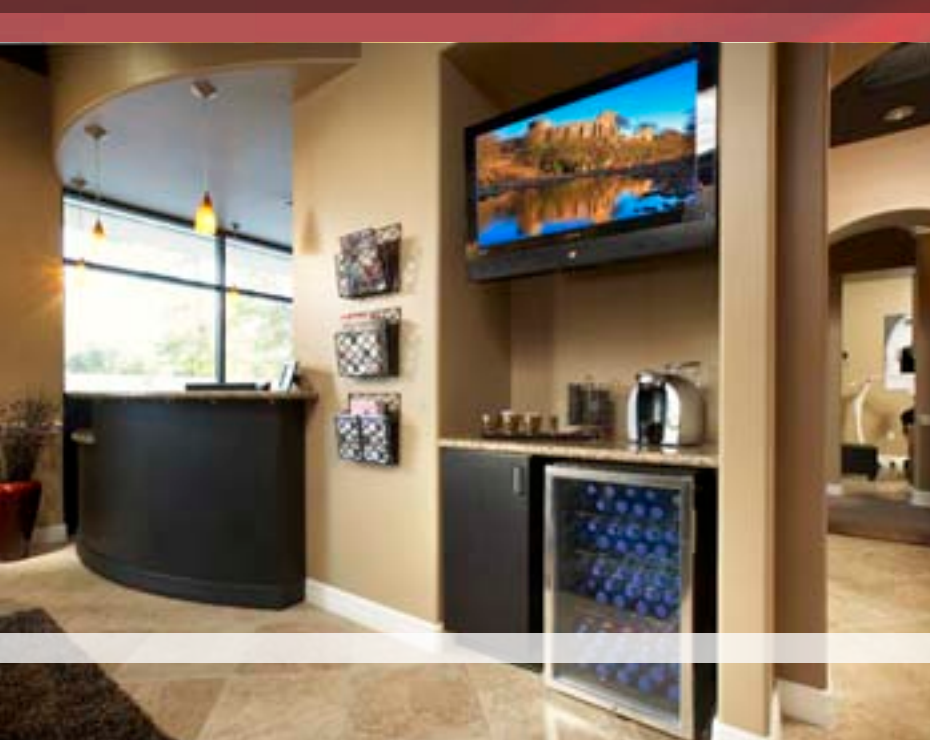

Dr. Brett Murphey was born and raised in the Houston area. He completed his undergraduate studies at Texas A&M in Biomedical Science, and he taught 9th grade science at Eisenhower High School before becoming a dentist. He was loved by his students and even awarded "Teacher of the Month" by the student body...Mr. February!

Dr. Murphey graduated at the top of his class, with honors, from the University of Texas Dental Branch at Houston. On a mission for continuous improvement in all his endeavors, Dr. Murphey holds himself to the highest standard of excellence. He believes that surrounding himself with a superstar team helps him be the best dentist he can be. As part of his pursuit of excellence, Dr. Murphey has taken hundreds of hours of continuing education in such areas as cosmetics, orthodontics, and sedation dentistry.

In his personal life, Dr. Murphey and his wife Crystal have a beautiful daughter named Elizabeth. For the past ten years, Dr. Murphey has traveled to Mexico, where he provides dental care to over 200 orphans. He also enjoys riding motorcycles, boating, skiing, scuba diving and playing softball on his church's team.

Woodlands Family Dental is located in The Woodlands at 1400 Research Boulevard in Suite 120. Call today to schedule your appointment at 281.681.9600, or visit their website for more information at www.WoodlandsDental.com.
